WELCOME

Welcome to the 40th Mumblebone Sale.

This year has been marked by the opportunity to share our story on stage, from LambEx to Longreach, with university students, GenAngus, livestock agents, and later this year at the Textile Exchange Annual Conference in Vancouver. At times it's a little daunting, but it always comes back to one simple focus of breeding the best Merino sheep for farmers around the world.

The interest in our story continues to grow on the back of the results we're seeing on the ground. Two of the best examples this year have come from the Nicholas and Jacka families in South Australia's Mid North. Their outstanding results are a credit to these astute breeders who have embraced data to steer their flocks on a clear path of genetic and commercial performance.

Performance on farm is just as exciting, and we are once again thrilled with the genetic gain made this year and the ever-

increasing depth of hard-to-combine traits. It's another reminder that today's best rams combine performance at levels the industry has never seen before.

Great results need great people, and our expert team of Josh and Ed has this year been joined by Jeremy Pearson, bringing new skills and fresh ideas to help grow this dedicated ram breeding business.

We are incredibly proud of this year's offering and hope you enjoy selecting your ram team from this lineup. As always, we love hearing how Mumblebone sheep are performing in your flocks and look forward to seeing your results in the years ahead.

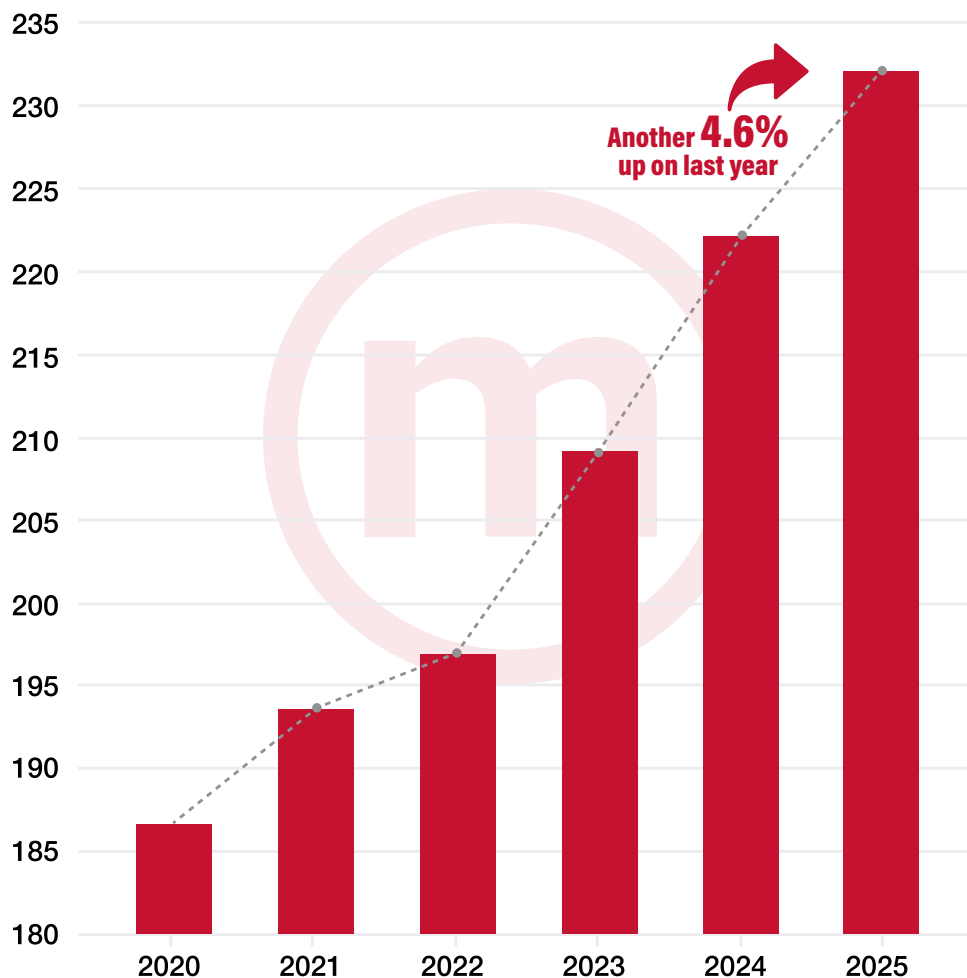

Kind regards,
Chad, Lou & the Mumblebone Team.

The Genetic gain Story

Following two consecutive years of exceptional gains, the 2025 drop has delivered a further 4.6% increase in the average Mumblebone Index - another significant step forward.

The real benefit for growers is the increased depth on offer. More rams than ever before combining the hard-to-combine traits at levels set to deliver performance to your flock.

Average Index Value of each drop

SALE INFORMATION

INSPECTION

Sale inspections from 7.30am.

Pre-sale inspections by appointment always welcome.

HEALTH

- OJD – MNI Vaccinated 2013
Certificate number NS76875
- Brucellosis - Mumblebone is brucellosis accredited.
Certificate number 76381
- Vaccination - rams have been vaccinated
with 6 in 1 at 6 and 14 weeks
- Scabby mouth – Mumblebone lambs are
treated with scabbyguard at 6 weeks.

FERTILITY

The rams testicles have been examined at classing and are guaranteed to be ready for work. Should a ram prove infertile or incapable upon veterinary inspection within six (6) months of purchase, the ram will be replaced or refunded.

FREE DELIVERY

Free delivery for all purchases of 10 rams or more.
Delivery to a central point will be coordinated where practical.
Please assist us by taking your rams with you if possible.

AUCTION

The 2026 auction will be an Open Cry auction system.

INSURANCE

Facilities for insurance will be available
at the sale through Elders.

ACCOMMODATION

The **new** indexes are our way of **simplifying** data for buyers to make more accurate buying decisions. Each index has **24 traits** that are weighted to suit the different environments and production systems used across all states of Australia.

The emphasis varies in the areas of **Growth, Carcass & Wool** while Mumblebone's industry leading Reproduction & Welfare traits remain consistent across all indexes.

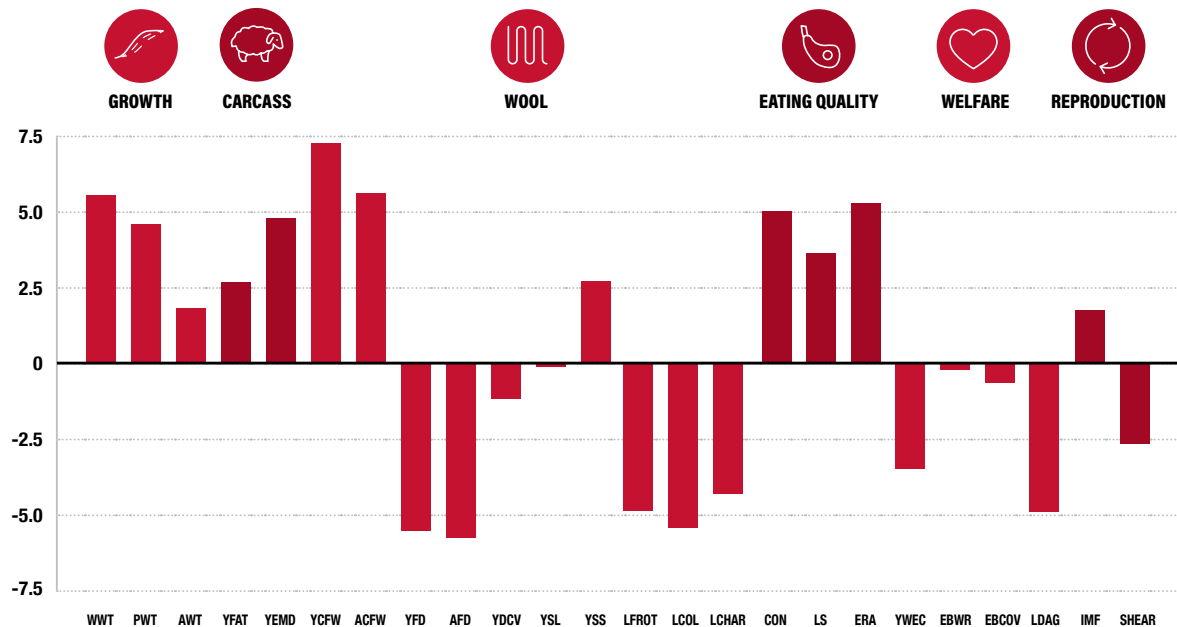

MUMBLEBONE index

This index reflects the trait emphasis that has built what is now known as the Mumblebone Merino – Ideal for the **modern breeder** looking to combine trait leading **Growth & Carcass** combined with **Fleece Weight** at a staple length to facilitate 6-month shearing.

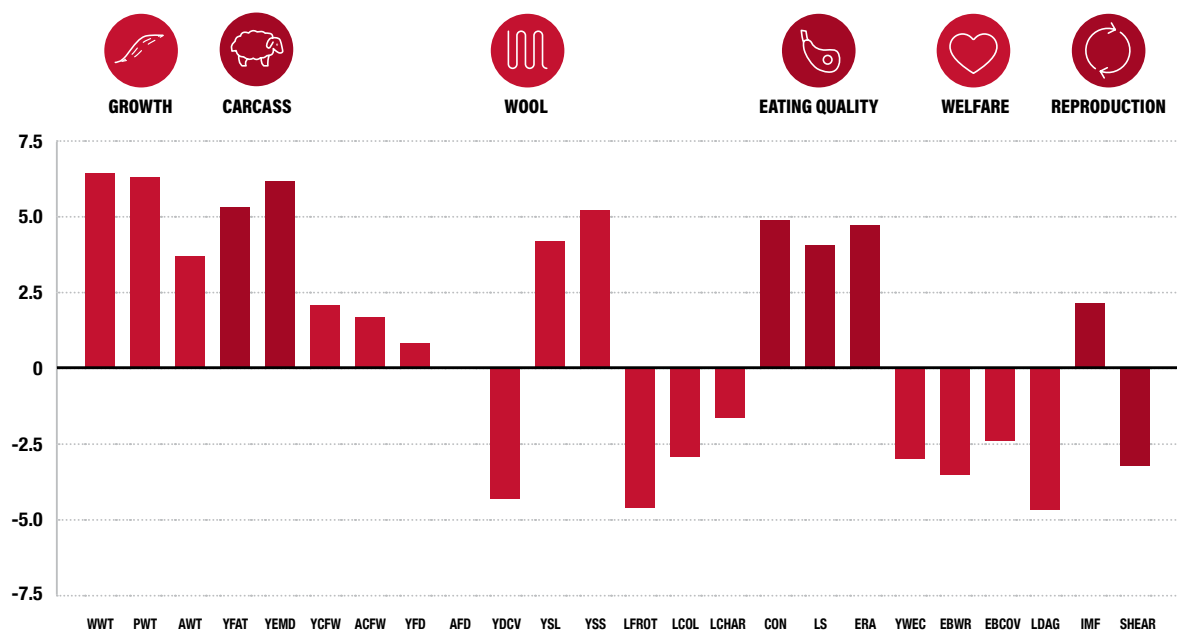

WOOL PLUS index

This index suits growers looking to **increase wool** production in an annual shearing program – Increased emphasis on **Fleece Weight & Micron** at an average Staple Length while **maintaining** above average Growth & Carcass.

CARCASS PLUS index

This Index suits growers in areas of **high VM** (vegetable matter) as well as those Composite breeders looking to increase the **fleece value** of their flock. Perfect for wether lamb turnoff & **ewe lamb joinings** – High emphasis on Fat, Muscle & IMF, with no selection pressure on staple length.
