Mumblebone Merino Stud Flock 63 Established 1879
Accredited Ovine Brucellosis Free Flock CW 97/1 | MN1 2013 Vaccinated

WELCOME

Welcome to Mumblebone's 2023 annual on-property sale.

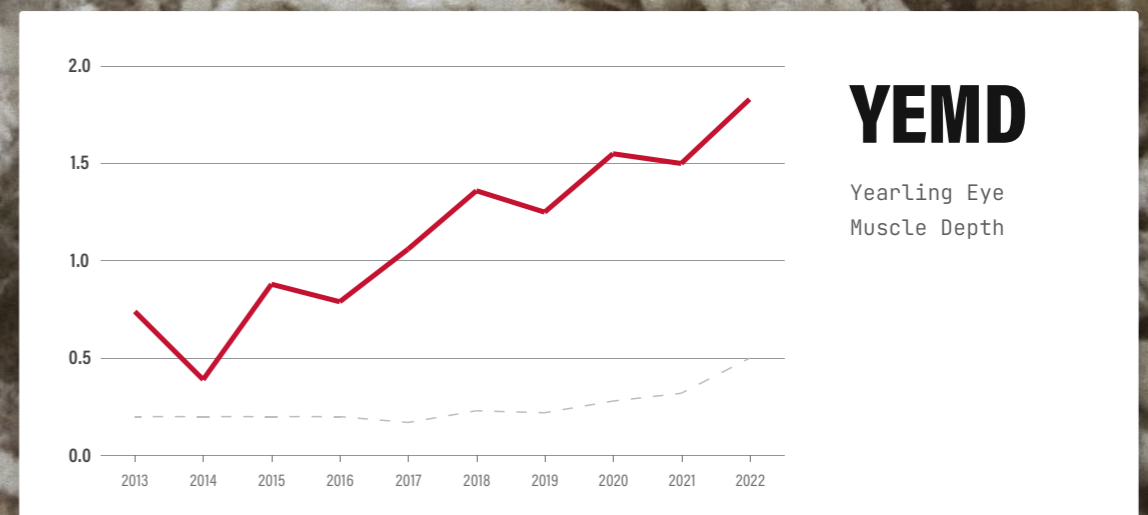

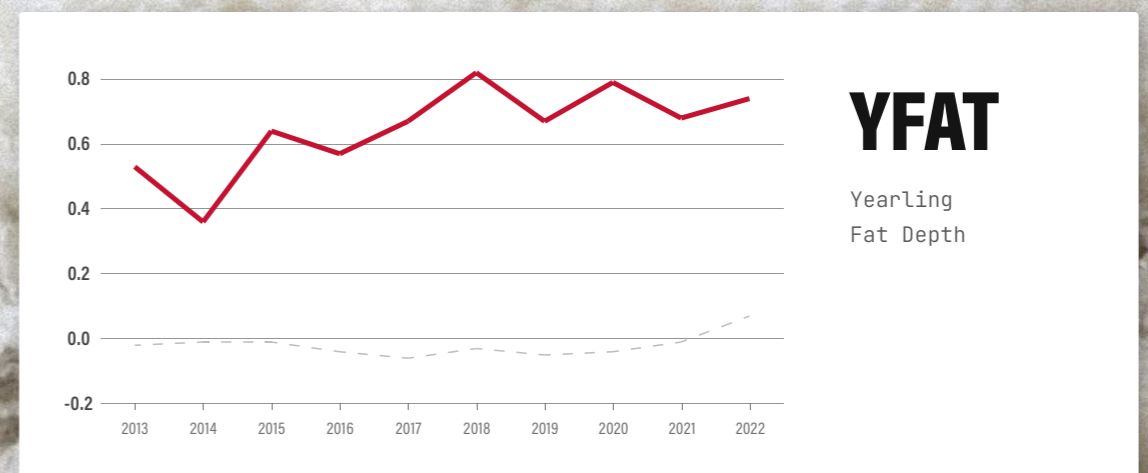

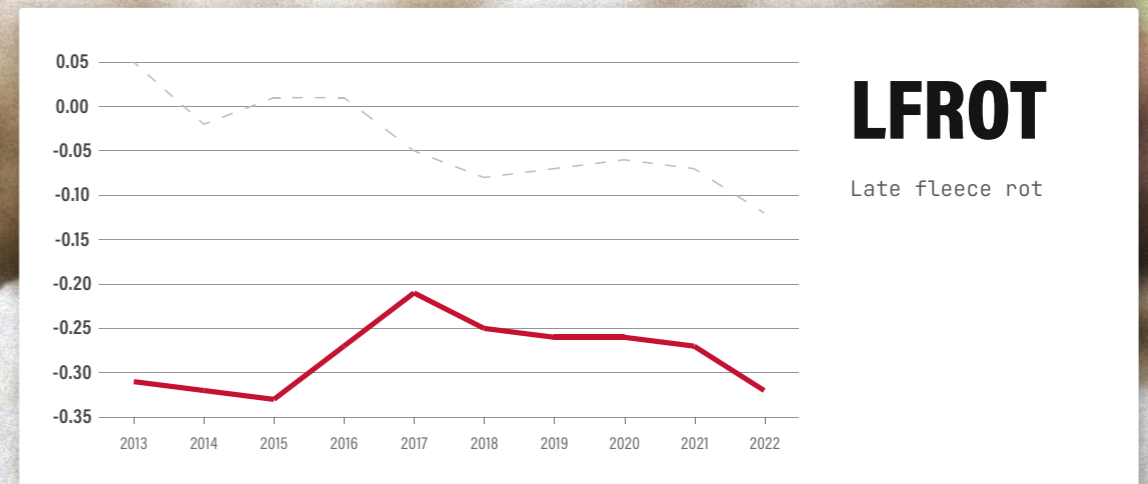

We've seen an incredible transformation in the seasonal & economic conditions from this time last year & we are once again very pleased to be offering animals that can tap into all areas of genetic improvement during these periods of volatility.

It's been wonderful to hear the feedback from clients across the country this year, though the real win for us has been in helping people identify the breeding direction needed to achieve these goals. We truly love being on this journey with our clients to share in their breeding success.

We are so excited to be offering this line-up of rams. We believe the depth & strength of this drop is our best yet & offers buyers the opportunity to create positive change in the areas that need it most - combining wool value with growth, carcass, fertility, welfare and profitability, and we couldn't be happier with this line-up of rams.

Thank you to all our buyers, both new & long standing, for your support of this program and we look forward to hearing more of your breeding success from the 2023 rams.

Kind regards,
Chad & Lou Taylor.

MUMBLEBONE'S SUPERIOR WOOL & CARCASS

— Mumblebone — Breed Average

SALE INFORMATION

INSPECTION

Sale inspections from 8am.
Pre-sale inspections by appointment always welcome.

HEALTH

- OJD - MNI Vaccinated 2013
Certificate number NS76875
- Brucellosis - Mumblebone is brucellosis accredited.
Certificate number 76381
- Vaccination - rams have been vaccinated with 6 in 1 at 6 and 14 weeks
- Scabby mouth - Mumblebone lambs are treated with scabbyguard at 6 weeks.

FERTILITY

The rams testicles have been examined at classing and are guaranteed to be ready for work. Should a ram prove infertile or incapable upon veterinary inspection within six (6) months of purchase, the ram will be replaced or refunded.

FREE DELIVERY

Free delivery for all purchases of 10 rams or more.
Delivery to a central point will be coordinated where practical.
Please assist us by taking your rams with you if possible.

AUCTION

The 2023 auction will be an Open Cry auction system.

INSURANCE

Facilities for insurance will be available at the sale through Elders.

ACCOMMODATION

At Mumblebone, we have unwavering faith in the exceptional quality of our genetics.

However, we believe that actions speak louder than words. That's why we would like to share the thoughts and experiences from some of our esteemed clients.

Their testimonials are a testament to the remarkable outcomes achieved through our genetics.

ANDREW KIRK
Manager, Warrambeen VIC

Warrambeen has sourced genetics solely from Mumblebone since 2019. They have proven to perform extremely well in our wet, southern Victorian climate with very little fleece or body structure faults resulting in us achieving our production targets 5 years in front of our strategic growth plan.

Our flock is run under commercial, low labour, intensive, rotational grazing management. Chad & the Mumblebone Team have been able to breed to, and exceed, our modern dual purpose breeding value targets and bring in production traits from industry outlyer rams to push the boundaries of the Modern Merino whilst maintaining key quality traits - a skill not often found.

DAVID GREIG
Bellevue Pastoral Enterprises, Tottenham NSW

Since our first joining a decade ago we've seen a near doubling in weaning rate. Not only do we now have more lambs, they grow faster and produce a more marketable wool clip.

We've run Mumblebone genetics from the rangelands to the Great Dividing Range and these sheep have outperformed other genetics, and breeds, in every environment.

JILL HILL
Benambra, VIC

The great thing when we measure is we can see the effects of change. In 2018 I became aware of the benefits of fat and muscle after contacting Ferg at neXtgen Agri and despairing that we were only marking 62% lambs to ewes joined with our traditional mulesed merinos.

In 2020, having purchased Mumblebone Rams with high muscle, fat and low breech wrinkle, we managed to mark 129%. We are now back in the game, & with lessons learnt in managing ewe condition score and, more importantly, having sheep we can get to CS 3, we have marked above 110% every year since moving to Mumblebone rams.

The change to non-mulesing has been easy using low EBWR ASBV rams from a stud that has not mulesed since 2006. Our 2022 results, with over 50% of the ewes joined being maidens, scanned 153% and marked 112%, & we joined our ewe lambs for the first time as they had the early growth to reach joining weight as lambs. It's all coming together.

For us the biggest change was selling a truck load of wether lambs that didn't even exist the year before. The effect of genetics is stark when measured in extra truckloads of sheep when everything else stayed the same!

DR MARK FERGUSON
CEO at neXtgen Agri & Breeding Consultant

Mumblebone is an excellent example of using all the tools available to breed great Merino sheep that meet the needs of the future-focussed sheep farmer. The change in sheep type, lift in the wool and repro data, and big steps forward in the farmability traits like fat, muscle and worm resistance over the last decade have been fantastic to be a part of.

DAVID BONNINGTON
Bonnayr, Curban NSW

We've been on Mumblebone genetics for 25 years & have seen continual improvement in our flock over that time - we now mark 40% more lambs, have ceased mulesing & run a flock that can handle the tough times far better. We shear every 6 months & our RWS accredited clip attracts a premium for our un-mulesed wool.

These improvements are a direct result of the measured genetic gains available through the use of industry leading ASBV's provided by Mumblebone.

A well balanced, productive & easy care animal should be the goal & Mumblebone allows us to breed that sheep. Just don't judge Chad on his choice of NRL team.

NATHAN GIBBS
Caniambo, VIC

"The extra lambs on the ground paid for the rams in one season"
"We were chasing lamb survival, that's why we headed down this path" Nathan predicts **"that for every 1000 ewes joined, the change to Mumblebone genetics will add \$130,000 to their bottom line"**
